

g. v. n.
NO. 4.

Rochester Commercial Nurseries

ESTABLISHED 1830.

WM. S. LITTLE & CO.'S

SEMI-ANNUAL

PRICE LIST

SPRING, 1898.

TERMS AND CONDITIONS OF SALE.

The prices quoted in this List are expected to apply only where the specified quantities are taken, except as follows strictly: *Where the order amounts to \$10 or over, five hundred will be supplied at thousand rate; fifty at the hundred rate, and six at the dozen rate:* At these wholesale prices, in the case of fruit trees, etc., the *varieties* are to consist of leading popular sorts, such as we cultivate in considerable quantities. See Descriptive Catalogue for list of varieties cultivated.

TRANSPORTATION—In furnishing trees, etc., on the terms of this Price List we cannot be responsible for the accidents or delays of transportation. All articles after leaving the Nursery in good condition, are entirely at the risk of the purchaser. Except in case of accident or gross carelessness, our packages will endure the longest journey in perfect safety.

GUARANTY—We honestly believe every tree which we send out to be genuine and true to label; and we are willing, and hold ourselves ready in every instance where a variety does not prove to be the correct one, to refund the purchase money or replace the trees, free of charge to our customer; but beyond this we do not hold ourselves liable for constructive damages by reason of errors.

OUR OFFICE, Greenhouses and Nurseries are situated at the corner of Culver and Clifford streets, about three miles from the center of the city. We shall be happy to welcome our friends there, and if those intending to visit us will telephone to us before leaving the city we will meet them at the eastern end of the Parsells Avenue electric car line with carriage.

TERMS CASH, except by special agreement. On account of the perishable nature of the goods, *we decline to forward any orders C. O. D.*, unless accompanied by a remittance sufficient to secure us from possible loss.

Correspondence is invited from all those who are interested in purchasing or planting trees, either in *large or small quantities*.

Address,

W. S. LITTLE & CO.,

COMMERCIAL NURSERIES,

ROCHESTER, February, 1898.

ROCHESTER, N. Y.

HEDGE PLANTS, ETC.

ARBOR VITÆ	{ Different sizes—see pages 7 and 8.	
NORWAY SPRUCE		
CAROLINA POPLAR—1 year, 4 to 5 feet		5 00

NOTE—We know of no tree that is so well adapted for making a quick screen. It is nothing unusual for a Carolina Poplar to grow ten feet in a single season. They should be planted about 18 inches apart and then cut to about a foot from the ground. Every year or two after they should be cut back almost as far. In a month they will regain their old height.

HORNBEAM—(CARPINUS).

A very old hedge plant. In Europe the gardeners by interweaving the top branches make a hedge so stiff that a man can walk on top of it. One of the best plants for ornamental screens. See page 4.

ROSA RUGOSA—2 years, own roots, 15 to 18 inches.....	1 50	8 00
--	------	------

The only rose available in this climate for hedge purposes. The foliage is thick and rough, and is never attacked by insects. The flowers are red, white and pink. Single and of large size, often measuring three or four inches in diameter. They bloom all summer long, the blooms being followed by very large and showy orange and red seed pods. We cannot too highly recommend this plant for low hedges.

PRIVET—CALIFORNIA, 12 to 15 inches. (See page 9.)

PURPLE BERBERRY—Different sizes. (See page 8.)

ROSES.

	Doz.	100.
HYBRID PERPETUALS —Two Years Own Roots—Anne de Diesbach, Antoine Mouton, Baron Prevost, Baron de Bonstetten, Baron Taylor, Blanch de Meru, Caroline de Sansal, Coquette des Alps, Countess of Serenye, Francois Levet, General Jacqueminot, John Hopper, Jules Margotten, Lady Helen Stewart, Louis Odier, La Reine, La Rosiere, Marie Bauman, Mme. de Rougemont, Mme. Victor Verdier, Marshall Forey, Prince Camille de Rohan, Perle des Blanchés, Reynolds Hole, Sydonie, Triomphe de l'Exposition	\$2 00	\$10 00
Belle Normandy, Baron Maynard, Duke of Edinburgh, Doctor Andry, Doctor Hogg, General Washington, Leopold Hapsburg, Magna Charta, Marie Boissie, Marie Rady, Mme. Trotter, Mme. Gab'l Luizet, Marshall P. Wilder, Mt. Carmel, Paul Neron, President Lincoln	2 50	
American Beauty—5 to 6 inch pots	2 50	12 00
“ 3 to 4 inch pots	2 00	8 00
“ 2½ inch pots	1 00	6 00
American Belle—5 inch pots	2 50	
MOSS —Eugene Guinoisseau, Perpetual White, Crested, Deuil de Paul Fontaine, Glory of Mosses, Mrs. Landau, Salet, Common White	1 50	
RUGOSA — RUBRA AND ALBA —Mixed seedlings, transplanted two years: 15 to 18 inches	1 50	8 00
BRIAR — ROSA RUBIGINOSA —(Genuine Scotch Sweet Briar), 2 years; strong	2 50	12 00
Penzance Hybrids —Amy Robsart (deep rose), Brenda, (peachblow), Catherine Seyton (rosy pink), Edith Bellenden (pale rose), Flora M'Ivor (pure white), Green Mantle (bright pink), Jeanie Deans (scarlet crimson), Lucy Bertram (deep crimson), Meg Merilla (crimson), Rose Bradwardine (clear rose); 2½ inch pots	1 00	6 00
NOTE—The Penzance Hybrid Roses quoted above are a most interesting class, being hybrids between the old-fashioned Sweet Briar and various other roses. The flowers are single and very fragrant. The foliage, too, has the delicate fragrance of Sweet Briar.		
CLIMBING ROSES —Baltimore Belle, Queen of Prairie, Seven Sisters; 2 years strong	1 50	6 00
Climbing Jules Margotten, Climbing Victor Verdier, Gem of Prairie	2 00	9 00
Crimson Rambler—5 inch pot	2 00	10 00
Yellow Rambler—1 year, extra. Dormant	4 00	15 00
Wichuriana—1 year. Dormant	2 00	10 00
“ HYBRID VARIETIES —South Orange, Perfection Pink Romer, Universal Favorite, Manda's Triumph. 2½ inch pots	1 00	6 00
TREE ROSES —A fine lot of Holland grown plants; our assortment including the cream of Hardy Varieties—Baroness Rothschild, Luizet, Brunner, Mrs. John Laing, Captain Christy, etc.	8 00	60 00

Niel, Mme. Hoste, Malmeson, Niphetos, Papa Gontier, Safrano, Watteville, Wooton; 5 to 6 inch pots	2 00	10 00
Bride, Belle Siebrecht, Coline Forestier, Gloire de Dijon, Malmeson, Mar. Niel; 2½ inch pots	1 00	5 00

YOUNG ROSES.

2 1-2 Inch Pots—For Transplanting.

We have our usual fine assortment of Young Roses to offer this year. Our stock has given invariable satisfaction, and with the present duty of 2½ cents per plant on foreign roses there is a fine margin of profit for the planter.

We offer this season the following varieties :

Alfred Colomb,	Gloire de Margotten,	Mme. Gab'l Luizet,
Brunner,	La France,	Perp'l White Moss,
Captain Christy,	Mme. Lacharme,	Prince Camille de Rohan,
Empress of China,	M. P. Wilder,	Salet Moss.

Price—\$5.00 per 100 ; \$40.00 per 1,000.

Anne de Diesbach,	Gem of Prairie,	Mme. Alfred de Rougemont,
Baltimore Belle,	Gen. Jacqueminot,	Marshall Forey,
Belle Normandy,	John Keynes.	Paul Neron,
Coquette des Alpes,	La Reine,	Queen of Prairie,
Clbg. Victor Verdier,	Louise Odier,	Seven Sisters,
Clbg. Jules Margotten,	Mme. Plantier,	Sydonie,
Doctor Andry,	Mt. Carmel,	Triumph de l' Exposition.
Francois Levet,	Magna Charta,	

Price—\$4.00 per 100 ; \$35.00 per 1,000.

Penzance Briars—10 varieties.....	6 00	55 00
Hybrid Wichuraiana—4 varieties	6 00	55 00

YOUNG CLEMATIS.

3 1-2 Inch Pots.

We expect to have ready for delivery, about April 15th, a fine lot of young Clematis in 3½ inch pots. If these are re-potted into 5 inch pots, or planted out of doors, they will make saleable plants next fall.

	PRICES.	per 100.	per 1,000.

Amabilis, P. Duchartre	3 00	

Specialties and Novelties.

BEECH-RIVERS PURPLE. The best of all the purple leaved trees, with the possible exception of the Schwedler Maple. We have some fine specimens to offer this season. For prices see page 3.

CHINESE MAGNOLIAS. We have a fine lot of these trees, and we grow and handle them in such a way that they are almost sure to live. Every plant we send out has a compact ball of earth on the roots. We offer the following varieties:

Alexandrina. Flowers white, marked with pink, the most vigorous grower.

Speciosa. Tree a good grower, naturally making a compact, round headed tree, the flowers are most abundant and in color are white with slight markings of pink at the base of the petals.

Soulangeana. Deep pink flower of large size, one of the best sorts.

Lenne. Dark red flowers, very large.

Stellata (Halleana). A most beautiful dwarf variety. Very rare. The flowers are semi-double, pure white and very fragrant. Blossoms in April, earlier than the other varieties. For prices of Magnolias see page 5.

CEDRELA SINENSIS. Any one who wants something nice and wants it quickly should plant one of these trees. A specimen planted in Fairmount Park, Philadelphia, ten years ago, is now about 30 feet high and nearly as many in width. Last spring we planted some little wisps, about the size of knitting-needles, in our nursery, and they are now about four feet high and nearly an inch in diameter. The leaves are put together on the style of the Locust leaf, and are about three feet long. In general style the tree resembles the Ailanthus, but it is entirely free from its disagreeable odor. See page 4 for price.

SCHWEDLER'S MAPLE. A beautiful variety of the Norway Maple. The foliage which is very large, is bright purple when it first comes out, it afterwards turns green. See page 5 for prices and sizes.

COLORADO BLUE SPRUCE. (*Picea Pungens*.) We have some very fine highly colored specimens of this most beautiful tree. See page 8 for prices.

WEeping NORWAY SPRUCE. (*Abies excelsa inverta*.) A most curious and graceful tree. It should be tied up to a stake for a few years in order to allow it to get sufficient height to exhibit its peculiarities. When thus trained the side branches fall directly downward, and with their rich covering of foliage drape the stem as a robe falls around the person. See page 8 for prices.

JAPANESE CYPRESS. (*Retinispora*.) A most beautiful group of evergreens, much hardier than the Lawson Cypress. We offer three varieties. *Retinispora Pisifera*. The type. A fine tree of medium size with foliage resembling the Arbor Vitæ, but much more delicate in general effect, it considerably re-

sembles the Lawson Cypress, but the foliage is of a lighter color. *Retinispora Squarrosa* is not so large a growing tree as the preceding. Its habit of growth is peculiar and may be described as cylindrical. The foliage is needle-shaped and of a soft, silvery blue color. *Retinispora Plumosa Aurea* is the brightest golden evergreen that is hardy in this latitude. See page 7 for prices.

CLEMATIS. We have in stock more than twenty-five varieties of this beautiful climber, and have room here to mention but two of them. Mme. Edouard Andre is a new sort, first exhibited in this country at the Chicago Exposition. It is larger than Jackmanni, nearly as free a bloomer, and the flowers are red. **CLEMATIS PANICULATA** is a small flowering variety, blooming about the first of September. It is as fragrant as a Jasmine, a tremendous grower and a most free bloomer. In our opinion this vine ranks in value with the Boston Ivy, (*Ampelopsis Veitchii*.) See pages 10 and 11 for prices.

PEONIES. Besides a fine collection of Herbaceous Peonies we can offer this year some very fine Tree Peonies, including that most valuable and rare sort, Reine Elizabeth. It has flowers of the largest size and of a rich red color. See pages 9 and 11 for prices.

ROSA RUGOSA (For Hedges). The plants that we offer for this purpose are 2-year seedlings, about eighteen inches high. Rosa Rugosa is pre-eminently fitted for a hedge rose. It is a strong, vigorous grower, and its foliage is not affected by bugs and the diseases which are so apt to attack ordinary varieties of roses. The flowers are single, run from two to four inches in diameter, and are of various shades of red, pink and white. See page 11 for prices.

ROSE, YELLOW RAMBLER. A hardy, yellow, Climbing Rose of great promise. Bids fair to rival the celebrated Crimson Rambler in popularity. See page 12 for prices and sizes.

LONICERA BELLA. A new type of the Upright Honeysuckle and a great improvement on the other sorts. The flowers are not much different from the old-fashioned varieties, but the bush is, if anything, more ornamental when in fruit than in flower. The berries which ripen in July are as large as a large currant and are borne in the greatest profusion. Lonicera Bella Albida has red fruit and Lonicera Bella Rosca orange fruit. See page 9 for prices.

LANDSCAPE WORK. Having secured the services of a competent Landscape Gardener, we are now prepared to furnish plans and estimates for the laying out and planting of grounds of any size. Any work of this kind that may be entrusted to us will be executed with the greatest care.
